

LYVN Smart Gear and Boot Dryer

Fast, effective drying and odour control for everyday life. LYVN Smart Dryer uses warm air circulation and ozone technology to dry and refresh boots, shoes, gloves, helmets and more - so your gear is clean, dry and ready to go.

Key benefits

- **Fast, efficient drying** – cuts drying time from hours to minutes for footwear, gloves, helmets and light gear.
- **Eliminates odours and bacteria** – built in **ozone sterilisation** neutralises smells and kills bacteria for fresher gear.
- **Automatic start and stop** – place items on the holders to start, remove to stop - simple and energy saving.
- **Adjustable heat and time** – set **40 °C to 70 °C** and **0 to 120 minutes** for full control.
- **Gentle on materials** – even warm air flow helps protect leather, fabric and foam padding.
- **All season convenience** – ideal for wet weather, winter and humid days when natural drying takes too long.
- **Versatile holders** – designed to fit a wide range of shoes, boots, gloves and helmets. Great for sport, travel, work and daily use.
- **Compact and durable** – sturdy design fits neatly in a laundry, garage or hallway.
